

Pranjal Kumar Shukla

Cybersecurity — Security-Focused Backend Developer — Linux & Cloud

☎ + (91) 82530-18472 · 📍 Bhopal, India

✉ coderkumarshukla@gmail.com

[LinkedIn](#) · [GitHub](#) · [LeetCode](#) · [Portfolio](#)

SUMMARY

Cybersecurity-focused developer with experience in secure backend development and automation using **Python** and **Spring Boot**. Skilled in **network security**, **log analysis**, and scalable system design, with strong foundations in **Operating Systems**, **Computer Networks**, **DSA**, and **problem solving**.

EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science & Engineering (AI & ML) – **CGPA: 8.6**

Bhopal, India

Sep 2023 – Present

- Relevant Coursework: Computer Networks, Operating Systems, Data Structures & Algorithms, DBMS.

WORK EXPERIENCE

FOSSEE, IIT Bombay

Software Developer Intern (Summer Intern)

Remote

Feb 2026 – Present

- Contributing to **OpenFOAM GUI** using **Python**, **Blender**, and **Linux**, improving workflow usability.
- Automated GUI workflows, reducing manual effort by 60% and improving efficiency.

AICTE Edunet (IBM)

Technology Intern

Remote

Jul 2024 – Aug 2024

- Built & deployed cloud-hosted application on **IBM Cloud** using Python, implementing scalable processing workflows
- Worked with cloud services, automation, and data analysis while following structured software development practices.

KEY PROJECTS

AgriProject – FarmFlow

Microservices-based Agriculture Platform

May 2025 – Oct 2025

Spring Boot, Docker, MySQL

- Built a Spring Boot microservices platform with 120+ REST APIs secured using JWT and Spring Security.
- Implemented role-based access control (RBAC), BCrypt password hashing, and secure service communication.

Kubernetes Monitoring System

Containerized Applications & Observability Platform

Jun 2025 – Aug 2025

Kubernetes, Docker, Grafana

- Managed Kubernetes workloads using Deployments, Services, Ingress, ConfigMaps, and Secrets.
- Implemented monitoring and autoscaling with Prometheus, Grafana, and Horizontal Pod Autoscaling.

Ascraa – Internship Matching Platform (Co-founder)

Video Verification & Candidate Ranking System

Nov 2025 – Present

Spring Boot, MongoDB, OpenCV

- Developed secure authentication and authorization workflows using Spring Security and OAuth 2.0.
- Implemented video verification pipelines and optimized inference performance for scalable processing.

TECHNICAL SKILLS

- **Cybersecurity:** Network Security, Authentication & Authorization, JWT, OAuth 2.0, RBAC, BCrypt, Secure API Development
- **Systems & Networking:** Linux, Operating Systems, Computer Networks, System Design, Multithreading
- **Programming Languages:** Python, Java, C++, JavaScript, SQL
- **Backend Development:** Spring Boot, REST APIs, Microservices, Distributed Systems
- **DevOps & Infrastructure:** Docker, Kubernetes, Prometheus, Grafana, GitHub Actions
- **Databases:** MySQL, MongoDB
- **Core CS:** Data Structures & Algorithms, OOP, Problem Solving

CERTIFICATIONS

Oracle Certified Professional – Java SE 17 Developer (Nov 2025)

NPTEL Cloud Computing (Top 5%): NPTEL25CS11S1042801742

Oracle Cloud Infrastructure 2025 Gen AI Professional

ACHIEVEMENTS

GATE 2026 Qualified: Demonstrated strong proficiency in Operating Systems, Computer Networks, DBMS, and Data Structures.

Competitive Programming: Solved **800+ problems** across LeetCode and GeeksforGeeks, strengthening problem-solving and algorithmic skills.

SIH 2024 College Finalist: Developed a safety monitoring system and ranked among the top teams from 400+ participants.
